WR-5964 (Cleaner)

GENERAL CHARACTERISTICS:

WR-5964 is for non-destructive test of welding defects. Normal welding microscopic surface cracks which may not be Detected with naked eye. Crack detection chemical ensures weld quality and guarantees performance satisfaction.

BENEFIT:

Removes hard to clean deposition of greases, greases, oils, dirt, lint.

For fast and efficient cleaning.

Does not contain any harmful chemicals viz. acids, etc.

Does not contain CTC or CFC hence environment friendly.

APPLICATIONS:

Cleans the welded surface effectively & prepares the surface for the application of Dye Penetrant.

TECHNICAL DETAILS:

Appearance:	Transparent
Specific gravity:	0.82
Propellant:	Non – C.F.C
Surface area coverage/gm:	10 sq. cm.
Film type:	Volatile
Drying time:	None
Shelf Life:	18 Months

Recommended for General purpose cleanser

PACKING:

500 ml/ 300 ml can.
